Technical Document

Niagara Cloud Service Guide

niagara

About this guide

This topic contains important information about the purpose, content, context, and intended audience for this document.

Product Documentation

This document is part of the Niagara technical documentation library. Released versions of Niagara software include a complete collection of technical information that is provided in both online help and PDF format. The information in this document is written primarily for Systems Integrators. To make the most of the information in this book, readers should have some training or previous experience with Niagara software, as well as experience working with JACE network controllers.

Document Content

This document describes how to use the cloudLink module and the integrated NiagaraCloudService. You learn about the functionality to send and receive data to and from the cloud as well as to push data from a collection of network capable devices (thermostats, HVAC units, Niagara stations while they can be securely managed and controlled from the cloud.
